
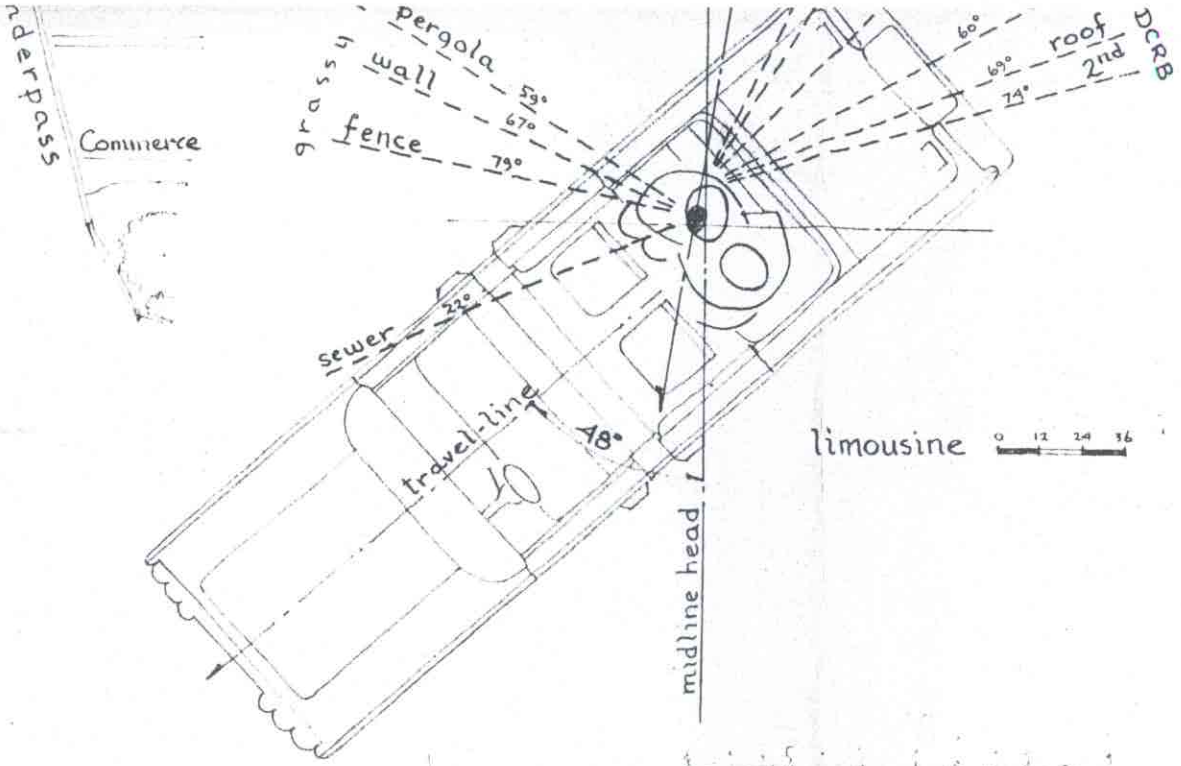
Answer to explain the forward then rearward motion VI/16/76 pg. I'm not adamant or angry - quickly suggested for thought



SECOND-RIFLE THEORY

HW:
very gently I submit this for your perusal —
reference Pat Morton post
, right and north are not the same.
bear the main point I would like to suggest, only suggest please,
is that the hypothesized rifle position on the grassy knoll do
not agree bullets from in front of the head of Z-312 and/or Z-313 and/or Z-314
have this action J-RT, second-rifle theory is theory only, and you must look als
